

Florida International University

DEPARTMENT OF EARTH SCIENCES

What's new?

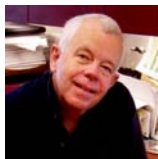

A diamond expert named Steve Haggerty After studying came to believe that diamonds from space, could visit our place and end up refusing to leave!

Black Diamonds -- fragmented asteroid from interstellar space ..says Prof. Steve Haggerty, graduate student Jozsef Garai and their co-workers in a paper in The Astrophysical Journal Letters [.....more](#)

-- Gene Byrge aka Diamond Gene

AAAS Honors Earth Science Faculty Member:

On October 27th 2006 The American Association for the Advancement of Science announced that it has elected [Hugh Willoughby](#), a Distinguished Research Professor in the Department, as a Fellow of the Society "for contributions to the theory of hurricane dynamics and inspired analysis of aircraft measurements, particularly for discovery of hurricane eyewall replacements as an indication of re-intensification." Dr. Willoughby will travel to San Francisco to receive the award on February 17th at the AAAS Annual Meeting.
