Geologists Discover Origin Of Mysterious Black Diamonds

Upton NY (SPX) Jan 15, 2007
 If indeed "a diamond is forever," the most primitive origins of Earth's so-called black diamonds were in deep, universal time, geologists have discovered. Black diamonds came from none other than interstellar space. In a paper published online on December 20, 2006, in the journal Astrophysical Journal Letters, scientists Jozsef Garai and Stephen Haggerty of Florida International University, along...[read more](#)

UNCF helps thousands of students. But we have to turn away thousands more.
