[Carbonado Mystery](#)

MIAMI - Professor Stephen **Haggerty** retrieves a 730-carat black diamond - the size of an apple - from his desk. It's nearly impossible to cut, potentially billions of years old and, he believes, a product of out... ▶

['Hypothesis' fails to prove God is unreal](#)

Scientists who think much about religion at all tend to divide into two camps. There are a few muscular atheists like Richard Dawkins, who seem to be on a crusade to stamp out religious faith. There are a much ... ▶
